

Maryland Insurance Administration

Going Live with NAIC's State Based Systems!

What does this mean for you?

The Maryland Insurance Administration will go live with a new back-office software solution, State Based Systems (SBS), on **April 11th**. As the regulatory system of choice by the Maryland insurance regulators, we encourage the industry to take advantage of our online tools as well as those of the National Insurance Producer Registry ([NIPR](#)). [Click here to learn more about SBS](#).

Changes

- **Expiration Date Changes** - Individual producer licenses and those license classes requiring an underlying producer license are moving from date certain to birth-month renewals. These licenses will now expire on the last day of the producer's birth month.
- **Individual License Numbers** - License numbers will no longer contain the prefix. For example:

Old license number: NPI512

New license number: 512
- **License Printing** - Licensees can obtain a PDF license via SBS Connect or Online Licensee Services (OLS). Connect offers one free license print every time a change occurs to the license record.

For detailed information regarding these upcoming licensing changes, please visit the [Maryland Insurance Administration Web site](#).
